

COPADO | COPADO PULL REQUEST PROCESS

KB0113335 - Latest Version

☆ ☆ ☆ ☆ ☆ 4 views

REFERENCE: [KB0113335 \(https://humanaprod.service-now.com/kb_view.do?sysparm_article=KB0113335\)](https://humanaprod.service-now.com/kb_view.do?sysparm_article=KB0113335)

The document provides details on Copado Pull request process

COPADO PULL REQUEST PROCESS

Pull Request Prerequisite Setup for Developers

For setting up Second Level Approval on the ADO

- 1) Go To ADO and Click on the Project for which you would like to add this rule for second level.
- 2) Click on Project Setting from bottom left of the page.
- 3) Click on Repositories under "Repos" Section.
- 4) Click on which repository you would like to add this rule.
- 5) After clicking on a repository and click on "Policies" Tab.
- 6) Scroll down to "Branch Policies" and click on any branch where you would like to add policy
- 7) Scroll down to "Automatically included reviewers" section and click on "+" under that to add a policy.

The screenshot shows the Copado web interface with the 'Edit reviewer policy' dialog box open. The dialog box is titled 'Edit reviewer policy' and has a close button (X) in the top right corner. It contains several sections:

- Enabled:** A toggle switch set to 'On'.
- Reviewers:** A list of reviewers with one entry: '(TEAM FOUNDATION)\G_Azure_VSTS_GroupCRM_TechAdmins'.
- Policy requirement:** Radio buttons for 'Optional' and 'Required'. 'Required' is selected. Below it, a text input field shows '1' for 'Minimum number of reviewers'.
- For pull request affecting these folders:** A text input field containing the path '/src/profiles/*; /src/permissionsetgroups/*; /src/permissionsets/*'.
- Completion options:** A checkbox labeled 'Allow requestors to approve their own changes' which is checked.
- Activity feed message:** A text input field containing the message 'Second level of approval needed'.

At the bottom right of the dialog box are 'Save' and 'Cancel' buttons.

Data to Enter:

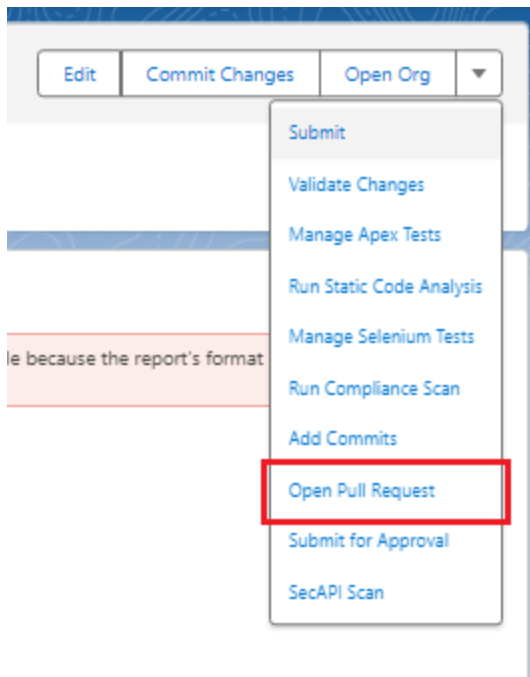

- Reviewers : New Group for the team who will be be part of approving the security changes.
- Policy requirement: Minimum number of reviewers should be always "1".
- For pull request affecting these folders: **/src/profiles/*; /src/permissionsetgroups/*; /src/permissionsets/***
- Activity feed message: **Second level of approval needed.**

Pull Request New Process

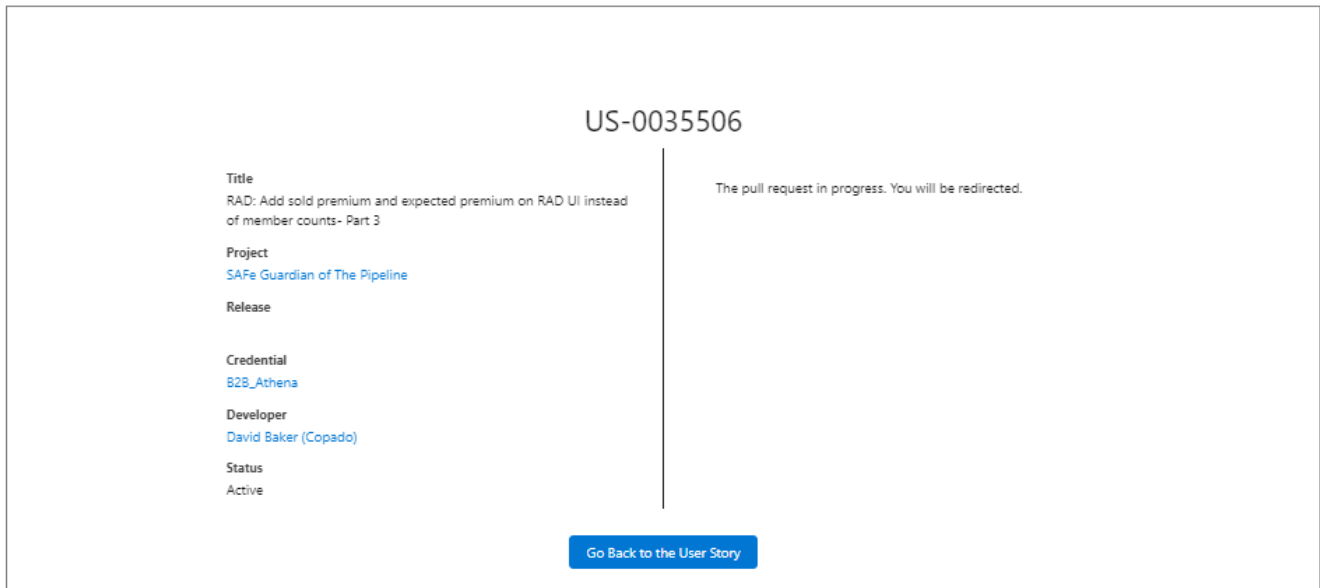

- This feature will enhance pull request from being self approvals and also this would enable Second Level approval workflow and normal approvals in azure in one place to get the PR approved in Copado.

Below are the steps to create a pull request in Copado.

1. Go To User Story and Click on the "Open Pull Request" from the Button towards top right.

2. After Clicking on Open Pull Request, you will be redirected to Azure in new tab.

Azure Tab for Creating the PR:
